BIAX Division Capacity
Expansion

Fund infusion from
Promoter group

Fund Raise from
Malabar India

Xpro India Limited intends to pursue material expansion of capacity by adding new manufacturing lines for Dielectric and other technical grades of biaxially oriented polypropylene film. The first phase would double capacity at its existing facility at Barjora, West Bengal, to be followed by a second phase either at Barjora or another appropriate location. These phases are expected to span the next 2 - 4 years, also taking into account long equipment delivery periods.

Promoter group has been allotted 3,28,000 warrants, each carrying a right to subscribe to 1 Equity Share of the Company, at an issue price of Rs. 762 (Rupees Seven Hundred Sixty Two only) per Warrant, which may be exercised in one or more tranches, within 18 months from the date of allotment of warrants on a preferential allotment basis (aggregating to Rs. 24.99 Crores) (25% received)

Biax Division

- The only manufacturer of dielectric films in India meeting about 33% of domestic needs. The balance presently met through imports offers a natural market.
- Capacitors essential to electricity distribution and consumption; A growing market with added thrust on infrastructure;
- Huge new opportunities in sunrise applications particularly in the EV Segment, with multi-fold capacitor application in e-mobility, convenience and safety systems including Power Control Unit inverter circuits, DC link power capacitors, start stop systems, high intensity discharge xenon lamps, passive key entry systems, pressure monitoring systems, driver information and entertainment systems; climatization, air-bag, braking systems etc.
- Further impetus from PLI schemes and import restrictions for the component ecosystem.
- Drive to reduce imports from China is a positive.
- Company has just announced intent to create additional capacity to meet these demands....

Coex Division

- Over the years company has evolved into the dominant player, well respected and enjoys a high market share in supplies to the Indian Refrigerator industry.
- Indian refrigerator industry has generally been growing consistently, and has attracted (and continues to attract) many global players to set up manufacturing facilities in India aimed at the domestic and export markets; Large Indian companies also entering the field.
- India is emerging as a hub for refrigerator manufacturing due increasing localization levels.
- Policy of encouraging domestic manufacturing, changing customer preference and channel proliferation are positives.
- Refrigerator penetration in India is amongst the least amongst white good categories (<50%), with Euromonitor projecting 14% growth during CY20-25E.
- Xpro is also looking to leverage the relationship with white good manufacturers, to expand product portfolio.

Exports

- The Company is already exporting Dielectric and specialized Films to developed markets like the USA and Germany which are markets with rigorous technical requirements.
- Sheets for refrigerator application are exported to neighbouring countries.
- Dielectric/Capacitor film exports today are restricted by capacity and since India is a substantial importer.
- Globally, the manufacturing of thin dielectric films is highly oligopolistic. With the expansion of capacity, the company would be in a position to cater to the global markets.
- Looking to target global markets with value-added products.

The Company

An introduction...

Diversified Business Operating In Niche Segments

Xpro India Limited:

-  Is a diversified multi-divisional, multi-locational business catering to multiple end user industry segments and enjoying a strong Brand Equity
-  Has core competencies in the polymer processing and co-extrusion industry with technical skills honed through years of experience
-  Enjoys a Leadership position in Dielectric/Capacitor films
 - Only Indian manufacturer of “Dielectric/Capacitor Films”
 - Contributing to an “Atmanirbhar” India... And onwards to the World...
-  Is long-established Leader in supplies of sheets/liners to refrigerator industry
 - The largest supplier of Coextruded Sheets/Liners to the Indian Refrigerator Industry
 - Servicing most refrigerator units
 - Longest standing in the Indian industry
-  World class plants across the country in Maharashtra, Uttar Pradesh, and West Bengal
-  Caters to large clients in target industries, and enjoys a very strong market share
-  Has strong corporate governance, an emphasis on integrity, sound management and a progressive attitude

Diverse Product Range for Specialized Applications

Dielectric / Capacitor Films

Speciality Biaxially Oriented Polypropylene Films

Coextruded Plastic Sheets

Thermoformed Liners

Cast Coextruded Films

Essential application in high growth & sunrise sectors
White Goods, EV & Hybrid vehicles ...

Multi Location

Some of our Valued Partner Clients...

- Impressive list of customers comprising leading Indian, and Transnational Companies
- Xpro a key partner over many years
- Customers recognise that Xpro builds in Quality and consistency
- Xpro does not compromise in Safety, environment or regulatory requirements
- Stable, long-term relationships
- Pass-thru understandings insulate from polymer price fluctuations
- Status as partner of choice!

Biax Division

THE ONLY DOMESTIC PRODUCER OF CAPACITOR/DIELECTRIC FILMS

Application areas include

- Capacitors for use in Fan, Cooler, Washing Machine and Air Conditioners
- Power Transmission & Distribution Capacitors
- Power Film/Electronic Capacitors
- Magnetic Lighting Ballast Capacitors
- Motor Run Capacitors
- Microwave Oven Capacitors
- Low Voltage industrial Power Factor Correction Capacitors
- AC and Pulse Film Capacitors
- Interference Suppression Capacitors
- Energy Storage applications
- DC Link Capacitors
- Capacitors for Hybrid/EV cars

Dielectric Grade BOPP Film

Film types offered include:

Oil Impregnation Film

- Hazy Film

Metallisable Film

- Standard Film
- High Temp Film
- High Temp Super Grade
- Semi Rough Film

Dielectric / Capacitor Films

- Specialty Biaxially Oriented BOPP Film – **very different** from packaging grade and other types of BOPP Films;
- Xpro Biax Dielectric Films are specially designed polypropylene films manufactured by the stenter process on highly specialized equipment in controlled environmental & ultra clean room conditions for a wide range of applications in the capacitors industry;
- Range includes plain / smooth films modified for good metallization with Al, Zn or Alloy and winding for normal and high temperature applications, High temperature Super grade, hazy / rough and semi rough films;
- Films are available in thickness range of 3μ to 15μ (lower thickness down to 2μ under development);
- Dielectric films are ideally suited for high performance capacitors, both for normal and high temperature applications, high temperature super grade for AC aging and ripple current condition at elevated temperature, high roughness films for oil impregnated high voltage application capacitors and semi rough films for metallization and oil impregnation for capacitors for locomotive applications;

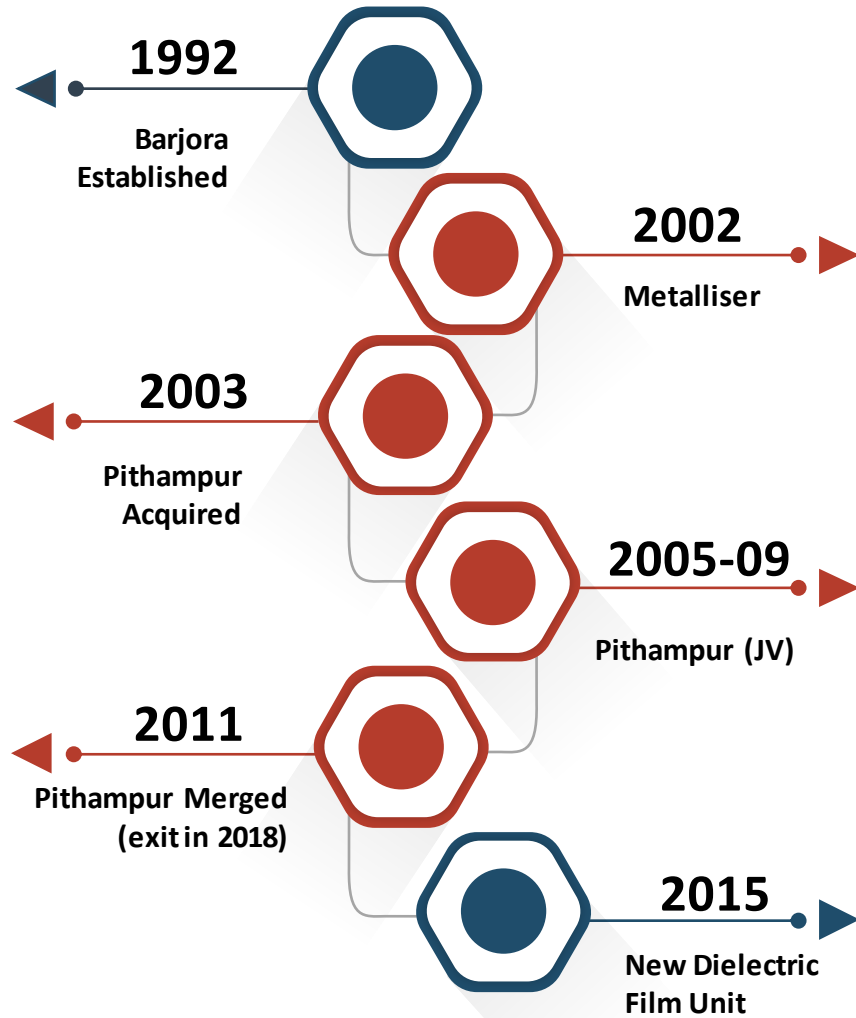

- **Xpro is the only domestic producer of Capacitor/Dielectric Films;**
- BOPP films produced with main equipment from Bruckner, Germany;
- Film technology originally sourced from U.K.;
- Dielectric film technology developed in-house is constantly updated;
- Product and technical capabilities well recognised by Indian and export customers;
- The technical expertise at Biax, supported by excellent in-house R&D facilities, has enabled successful development of new range of films for specialized industrial applications;
- Highly specialized equipment operating in a controlled environmental and under ultra clean room conditions;

Coex Division

LEADERSHIP POSITION IN SUPPLIES OF SHEETS/LINERS TO REFRIGERATOR INDUSTRY

Coextruded Plastic Sheets

Multi-layer Co-extruded Sheets

- Xpro offers a wide range of mono-layer and coextruded plastic sheets, produced on highly sophisticated equipment based on various thermoplastic resins (such as PS, PP, ABS, PE etc.) specially designed to meet specific customer needs, specifications and colour choice;
- Sheets are available in cut or roll form, with thicknesses ranging from 0.2 mm to 7 mm, in widths up to 2300 mm, and with embossed or plain (matt or glossy) finish;

Sheet Applications

- XPRO COEX have several fully automatic specialized lines for continuous vacuum forming for thickwall applications at the Greater Noida and Ranjangaon units;
- Thermoforming plants specially designed for high production requirements with auto-sheet loading, pre-heat stations, full micro-processor control and fast tool change capabilities;
- Sophisticated electronic controls ensure quick machine set-up, fast and precise control of the heating elements and easy re-programming of production parameters ensuring high productivity and repeatable quality;
- Primary application is for Refrigerator inner and door liners;
- Thermoforming capabilities extend to include Automotive interior and exterior trims (e.g. dash boards, door panels, floor panels, etc.); Furniture; Luggage Shells; Sanitary Products (e.g. Bath-tubs, Cabinets); Electrical/electronic housings (Light panels, street lamps and other light fittings); Industrial trays for material handling etc.;
- Thermoforming as a process offers advantages of lower tooling and prototyping costs, lower part weight, lower material costs, larger parts, good surface quality and finish and flexibility in design;

Cast Coextruded Films

Xpro Cast Films are produced on the most sophisticated multilayer coextrusion film lines.

A wide range of speciality cast films are offered including

Release Films

Polyethylene based embossed or plain films tailor-made for use in rubber, tyre & tread and conveyor belting industry

Hygiene Films

Specially formulated cast coextruded film based on Polyethylene for use as diaper backing film, in under-pads, in sanitary napkins, adult incontinence products and in surgical drapes.

Stretch Wrap Film

Cast coextruded LLDPE based film designed for use in pallet stretch wrap and food bundle overwraps.

Soft Blister Film

Specially formulated coextruded film for medical disposables packaging.

Greater Noida, (Uttar Pradesh)

Ranjangaon, Maharashtra

- Xpro is the predominant player and leader in supplies of Sheet/liner to the Indian Refrigerator Industry;
- The Coex Division is engaged in the manufacture of Coextruded Multilayer Plastic Sheets and Coextruded Multilayer Cast Films and operates eight multilayer sheet lines, and five sophisticated thermoforming system specially designed for forming of refrigerator door and cabinet liners, as well as two co-extruded multilayer cast film manufacturing lines;
- Xpro extruded products are based on a variety of polymers and are tailor-made to meet specific customer requirements with applications restricted only by imagination;
- The product offering includes a wide range of co-extruded plastic sheets for wide-spread use. The cast co-extruded films produced are primarily speciality products;
- Since its inception, the division has established itself as the leading source in India for both Co-extruded Plastic Sheets and Speciality Cast Co-extruded Films and has built up a client base encompassing leading Indian and Multi-national units;
